

Tax determination for certain gig economy employers
(email 6/26/20 from Kristine Wardlow)

Good Morning Adjudicators,

We received information from the Tax Unit that affects claims with certain gig economy employers.

Tax has made a decision to stop conducting interviews with the following companies, all the claimants are deemed employees and you just need to obtain POE and process the claim:

UBER
LYFT
INSTACART
GRUBHUB
DOORDASH
AMAZON FLEX and or AMAZON.COM

This means that if we have a claimant who has earned 4 x wba with one of these employers we can remove the stop and send a 323 request to add the wages. We do not have to send a 1721 to determine the employer/employee relationship. If you have already sent a 1721 on a claim with one of these employers, please go ahead and remove the stop while waiting for the wages to be added.

Please e-mail me with any questions you may have.

Thank you for your continued hard work.
The Management Team
