

FOR IMMEDIATE RELEASE

On Tuesday April 26th and Wednesday April 27th, The Hoffman Research Group surveyed a cross section of Oregon Republican voters to ascertain their preferences in the 2016 Presidential Primary Election.

The survey is based on landline and cellphone interviews with 555 randomly chosen likely Oregon Republican Primary voters. Attention was given to Oregon's rural and urban divide within seven geographic regions. The survey also maintained appropriate balances with regard to age, gender and vote propensity.

The survey has a margin of error of plus or minus 4.16 at a 95% confidence level.

Headquartered in Portland, OR, The Hoffman Research Group, a division of Gateway Communications Inc., has conducted hundreds of political tracking surveys and market research projects since 1984.

For more information, please contact Tim Nashif, CEO of Gateway Communications, Inc.
